

# SAT Scores in Year 6

# How we set targets

We use a national data base comparing how students with similar SATs achieve at GCSE

End of year 11 expected grade

This is then used to work backwards to create a

**END OF YEAR TARGET GRADE**

for each year

- 1
- 2
- 3
- 4
- 5
- 6
- 7
- 8
- 9

# Last year....

- We set targets using a FLAT path
- This meant that if you had an End of Year 11 Target of a Grade 5, you had a Target of Grade 5 in Year 7, 8, 9, 10 and 11

Year	Year 7	Year 8	Year 9	Year 10	Year 11
Target	5	5	5	5	5

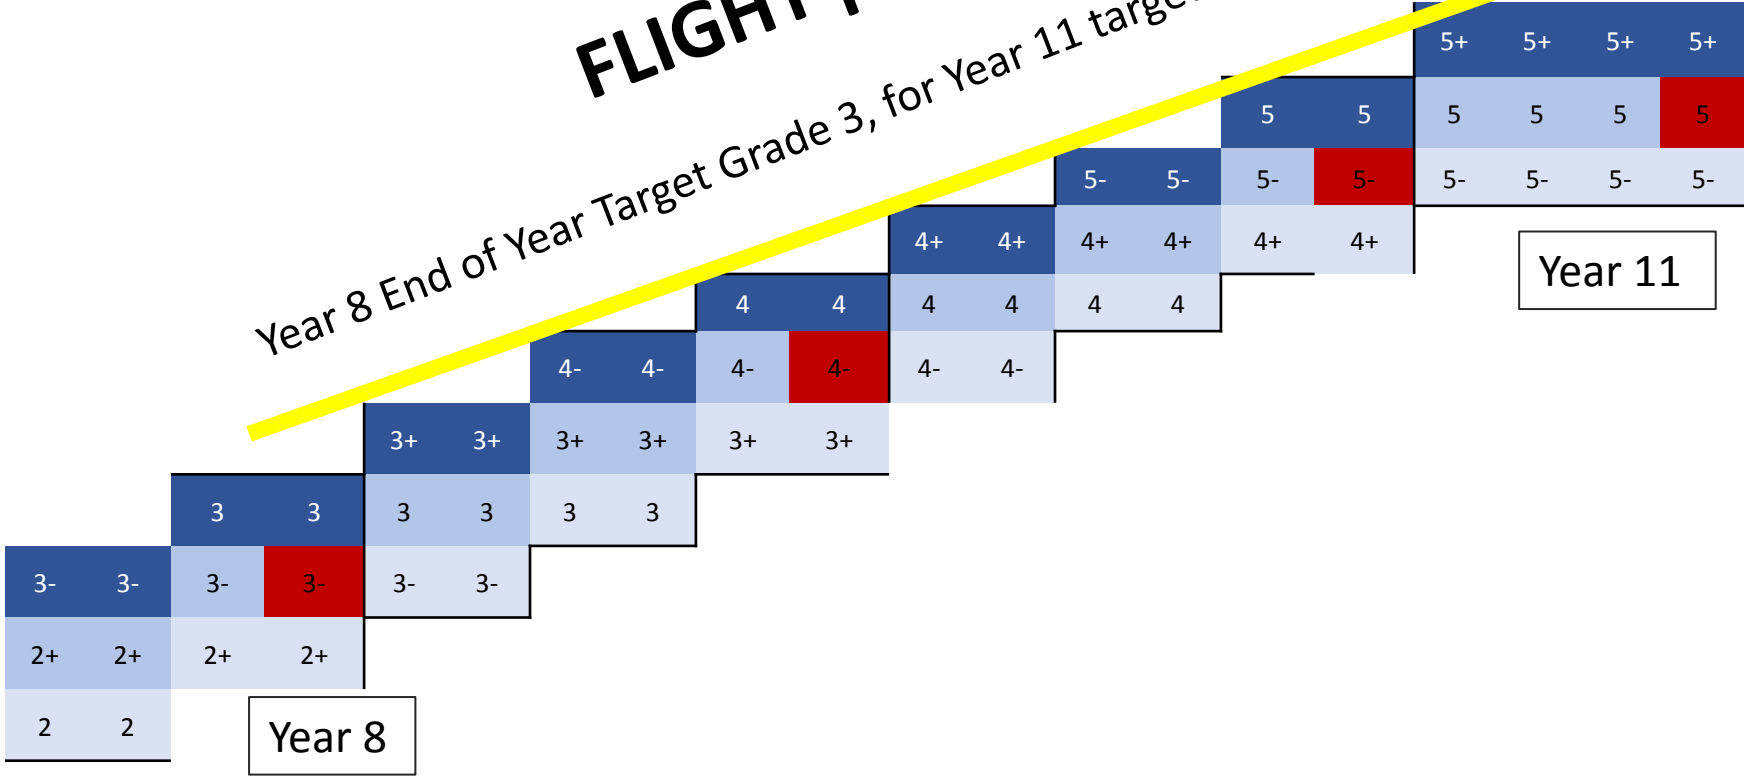

FLAT path

# From September 2018

- We have set targets using a FLIGHT path
- This means that if you had an End of Year 11 MINIMUM Target of a Grade 5 you would be expected to be at a Grade 5- in Year 10, Grade 4 in Year 9, Grade 3 in Year 8 and Grade 2 in Year 7
- So, you would have a End of Year Target that would change from a Grade 2 in Year 7 to a Grade 5 in Year 11
- This is a FLIGHT PATH. It tells you where you need to be in Year 7-10 to be able to achieve your target grade in Year 11

# FLIGHT path

Year 8 End of Year Target Grade 3, for Year 11 target of Grade 5

# What does this look like

- The next slide shows Year 7 and 8 zoomed in, with Year 11 on the right
- It shows how having a target of a 5 in Year 11 means you need to be at a Grade 3 in Year 8 and Grade 2 in Year 7 to be ON TARGET to achieve your End of Year 7 Grade 2 target (and be on the **flight path** to achieve your End of Year 11 target of a Grade 5)

# Year 7

# Year 8

Because your target is for the end of the year you will often be under your target at the start of the year as you will move closer to your target during the year

Year 7 Grade 2

Year 8 Grade 3

Year 11 Grade 5

In Year 7 your End of Year Target is a 2, but to be on target you would be expected to get a Grade 1 at the start of the year
