18<sup>th</sup> January 2022

### PRIVATE AND CONFIDENTIAL

Dear Parents, Carers and Guardians,

From Monday 17<sup>th</sup> January, students who are self-isolating with COVID-19 can reduce their isolation period after 5 full days if they test negative by lateral flow on the mornings of day 5 and 6 if they do not have a temperature.

If students test negative on the morning of day 5 and the morning of day 6, they can return to school immediately on day 6.

The first test must be taken no earlier than day 5 of the self-isolation period, and the second must be taken the following day (24 hours after the first test). All test results have to be recorded with an [NHS test and trace](#) and the [School Google Form](#).

If the result of either of the students tests is positive, they should continue to self-isolate until they get negative results from two lateral flow tests on two consecutive days or until they have completed 10 full days of self-isolation, whichever is earliest.

Anyone who is unable to take lateral flow tests or anyone who continues to have a temperature will need to complete the full 10-day period of self-isolation.

Regards

Samantha Satyanadhan  
Associate Principal
